

Beviljade bidrag inom fjärranalysprogrammets forskningsdel för 2009,
inklusive tidigare beviljade anslag

Huvudsökande	Dnr	Projekttitel	2009 Bidrag i kkr (exklusive OH)
Ardö Jonas, LU	74/08	Remote Sensing of Carbon Dynamics in the Sahel	800
Ban Yifang, KTH	144/08	Fusion of Spaceborne SAR and Optical Data for Urbanization Monitoring	750
Brown Ian, SU	63/08	The application and refinement of SAR methods for identifying climate impacts on glaciers and ice sheets	519
Eklundh Lars, LU	103/08	Remote sensing of boreal forest phenology	550
Eklundh Lars, LU	87/07	Remote sensing for estimating the carbon balance in Nordic ecosystems	700
Fransson Johan, SLU	127/07	Evaluation of Forestry Applications Using New SAR and Optical Satellite Images	1000
Johansson Cecilia, UU	70/07	Interpretation and evaluation of snow and ice from remote sensing using local and scientific expertise	600
Karlsson Karl-Göran, SMHI	106/08	Utilisation of Advanced Satellite and In situ Observations in Support of Arctic Climate Modelling	750
Kleman Johan, SU	110/08	Remote Sensing of past ice sheet beds and current ice sheet surfaces	360
Kratzer Susanne, SU	92/07	Algorithm development and validation of MERIS data over optically complex waters	850
Lindskog Magnus, SMHI	105/08	Assimilation of high resolution cloud resolving radiances in high resolution models with 4-dimensional pattern matching algorithms	800
Lundberg Peter, SU	115/06	Altimetric Studies of the Swedish/Nordic Seas	675
Olsen Are, GU	62/07	REmote Sensing ocean Carbon UptakE - phase II (RESCUE-II)	500
Olsson Håkan, SLU	94/07	Mapping of mountain vegetation - influence of sensor and amount of field data	238
Olsson Lennart, LU	95/08	Earth Observation for Global Health Actions (EOGHA)	400
Sjöberg Lars E, KTH	63/07	Geoid determination by GOCE	610
Ulander Lars, Chalmers	89/08	Developing retrieval algorithms for forest biomass from P-band SAR	800

De gråmarkerade projekten kvarstår från tidigare år
