

Call 2020-C

COVER SHEET

Enclosure 1: Career Plan and Research Project

SNSA rules for this enclosure

Required contents

- A general summary (copy from Form C allowed).
- Career plan and specification of the position sought.
- Description of the proposed research programme. The programme must be described with sufficient background information to allow a peer with no prior knowledge of your work to make a good evaluation of the proposal. Schedules, milestones and work packages must be specified for the first two years.
- Description of the researcher's connection and collaboration to research projects which are not included in this application.
- Specify clearly how the proposed programme is related to current or future space missions (including sounding rockets and balloon flights). Give clear information on how you have or intend to get access to data or be involved in the planning of the space mission.
- If applicable, describe applications of the project and societal benefits (don't include general statements about the value of basic research to society).
- A plan for popular information to the public on the research activities.

Size of this enclosure (excluding this cover page)

Maximum 12 pages (including own text, illustrations, letters of support, etc.)
